Races

48. All races will be held on Mooney's Bay on Riverside Drive.

49. Dragon boats shall proceed to the start line by a route outside of the actual racing lanes on the day of competition except while engaged in an actual race event.

50. Crews must embark and disembark the dragon boats as directed by the Dock Marshall or his/her designate.

51. Crews must race the entire length of the racecourse in the allocated lane.

52. Following each race, the crews must proceed IMMEDIATELY to the docking area to disembark.

53. The racecourse is 500 metres in length, from a line pre-set at the southern end of Mooney's Bay beach down to a finish line located in front of the Judges Stand at the northern tip of Mooney's Bay beach. Saturday's races will be 500m in length. Sunday will include one(1) 100m final, one(1) 200m final and one(1) 500m final.

54. The Race Committee of the Festival may provide for one or more races over a course length of 100 metres with the same finish as the 500m races.

55. Each lane is 11 metres in width and will be marked with buoys as will the start and finish line. A crew's lane is the lane immediately to the left of the buoy marker with that crew's lane number. Your numbered buoy marker, which corresponds to the number on the boat, will be to the right of the boat's dragonhead.

56. The finish line is reached when the furthest point forward at the bow of the boat, typically the nose of the dragon's head if attached, but excluding any unattached items such as paddles, breaks the plane of the finish line. In the event the dragonhead is not attached to the front of the boat at the finish, the furthest point forward at the bow of the boat shall be the determining point for that boat's finishing time. All crew members must be aboard at the completion of the race or the crew will be recorded as DNF (Did Not Finish).

57. Except for the Saturday preliminary races, the starting order for all teams shall be determined by ranking. For the Sunday Finals, the team lane assignments shall be seeded from the centre lanes out.

58. The first race of each team shall be printed in the Saturday race schedule. Times of second or subsequent races will be announced and posted on race day at the race site.

Start of Races

59. It is the responsibility of each team to be at the start for its races.

60. The objective is to give all teams a dead, even start on the defined start line. The nose of the dragon of each boat shall be the starting point of reference.

61. The procedure to be followed by the Referee(s) and Starter is as follows:

- The Starter shall announce to the teams in the race "3 minutes to start";
- The Referee(s) shall space the teams behind the start line in their respective lanes;
- The starter shall announce to the teams in the race "1 minute to start";
- When the Referee(s) is (are) satisfied the teams are properly spaced and aligned behind the start line he or she will hand the race over to the Starter with the words "Mister/Madam Starter the race is yours";
- No boat may allow the nose of its dragon to cross the start line before the start of the race but shall draw up to the start line as directed by the Starter;
- When the Starter is satisfied that the teams are in dead even line for the start he or she shall announce to the teams "Ready-Set" and within 3 seconds either fire a gun or sound an air horn signalling the start of the race;
- False starts are not permitted. The Starter shall disqualify any teams that start to paddle after the "Ready-Set" and before the start of the race;

- The Starter may call back any race for a re-start provided (s)he does so immediately after the start of the race and only in the event that the Starter is of the opinion the start was not a dead even start with the teams properly spaced and aligned. The Starter will signal a re-start by a second shot of the gun or second sound of the air horn whatever was used to start the race;
- At any time after the Referee(s) hands the race over to the Starter, but before the "Ready-Set" is given to the teams, the Referee(s) may, in the event of improper alignment or spacing of teams, take the race back from the Starter by announcing "Mister/Madam Starter I have the race".

Conduct of Races

62. Teams and team members shall immediately follow and comply with all instructions of the Starter and Referee before, during and after a race while on the water. Any failure to do so may result in disqualification of the team from the race by the Starter or Referee, as applicable, and in the event of flagrant disregard of such instructions may result in disqualification from further participation in races by the Chief Race Official.

63. Each team shall keep to the centre of its own lane and avoid contact or interference with other teams.

64. When a boat is in a position to overtake another boat during a race, it is the duty of the boat overtaking to keep clear, at all times of the boat overtaken. Equally, the boat being overtaken is not allowed to alter course to make difficulties for the overtaking boat.

65. Any team that leaves its own lane and contacts or otherwise interferes with any other team may be disqualified by the Referee.

66. A Referee may stop any race after its start by firing a shot or sounding an air horn, and order the race re-started if the Referee is of the opinion to do so is necessary to ensure a fair race and result. Any team or teams committing fouls that give rise to the re-start of the race may be disqualified from the re-start of the race.

67. Upon disqualification during the course of a race a team shall be told by the Referee to stop paddling and shall immediately stop paddling until the race passes the team by. Notwithstanding, a Referee may tell a team to stop paddling without disqualifying the team for the purpose of race control and the team shall stop paddling until advised by the Referee to start up paddling once again.

68. Each boat must cross the finish line by its bow and in its proper lane in order to count as having finished the race. Any boat crossing the finish line out of its lane is automatically disqualified.

69. A race shall be officially completed when the Referee(s) raises either a white flag signalling the race was "o.k. as run", or a red flag, signalling that a foul was committed by a team during the course of the race. The Referee(s) shall raise the appropriate flag as soon as all boats still in the race have crossed the finish line.

70. A Starter may disqualify any team on the water prior to the start of a race or on the start of a race for failure to abide by the Festival Rules and Regulations.

71. A Referee may disqualify any team on the water prior to the start of a race, during the course of a race, or on the finish of a race for failure to abide by the Festival Rules and Regulations.

72. The Chief Race Official may disqualify any team at any time, on or off the water, from the competition for failure to abide by the Festival Rules and Regulations.

Protests

73. A team may protest any decision of a Starter or Referee in respect of a race provided the Team Captain notifies the Protest Official verbally within 10 minutes of the race of the protest and files particulars of the protest in writing with the Protest Official together with a Protest fee of \$20.00 within 20 minutes of the completion of the race. The Protest Official shall consider the protest and allow or disallow the protest as (s)he considers appropriate. If the Protest Official allows the protest (s)he may order a race re-run or take such other corrective action as (s)he considers appropriate. If the protest is allowed the protest fee of \$20.00 shall be refunded to the team.

Scoring and Prizes

74. The Chief Race Official is responsible to confirm and announce the order of finish in each race and to record the race time of each boat in the race.

75. The awards and prizes to be awarded shall be as determined by the Race Committee of the Festival.

76. All large team trophies are the permanent property of the Festival. A trophy winning team may keep the trophy for one year provided it is returned in good condition to the festival office no later than May 15th of the following year.
